EDUCATION

University of Toronto

Honours Bachelor of Science, Financial Economics

Toronto, ON

Class of 2024

- CGPA: 3.54/4.00, graduated with High Distinction; CFA Level 1 Passed.
- Awards: Dean's List; UofT International Scholar Award (\$60,000, for outstanding academic performance).

PROFESSIONAL EXPERIENCE

S&P Global

Toronto, ON

OTC Derivatives Analyst

Apr 2025 – Present

- Serve as primary contact for ~20 institutional clients, including two of the firm's largest, spanning banks, hedge funds, asset managers, and fund administrators; run monthly check-ins; pitch our services and pursue upsell opportunities.
- Helped secure and led the 5-month onboarding of a new client signing \$400K+ in annual revenue to price equity-linked notes (ELNs) for its ETF, one of the quarter's largest client wins.
- Co-led pre-sale sample valuations and process walkthroughs, then integrated pricing into the client's heavily regulated, multi-party workflow.
- Resolve price challenges by investigating model mechanics and market data, then explain and defend methodology to clients; specialize in equity and credit derivatives, with working knowledge of rates, FX, and fixed income.
- Built an AI agent (Kensho's internal AI platform, then Microsoft Copilot Studio) that pre-populates booking templates for exotics such as absolute dispersion options and ELNs, saving ~2 hours of manual work daily; adopted by other analysts.
- Lead client-side delivery of a new mark-challenge and trade-confirmation workflow for the firm's largest client, replacing a legacy process; gather requirements, direct build teams, and test the solution.
- Translate client needs into actionable input and coordinate quant, product, sales, and engineering teams to deliver on them; help onboard and train junior analysts.

Semper8 Capital Ltd

Toronto, ON

Investment Analyst (Co-op)

Sep 2023 – Apr 2024

- Sourced pre-seed and seed-stage biotech ventures matching fund criteria; organized and facilitated founder and executive conversations with the investment team across 20+ companies.
- Produced industry and company deep dives; performed due diligence on Middle East health infrastructure projects.

GWL Realty Advisors

Toronto, ON

Summer Analyst, Property Management

May 2023 – Aug 2023

- Designed interactive Power BI visualizations of property portfolio performance to inform management strategy.
- Gathered tenant feedback and produced reports to improve the firm's service offerings.

University of Toronto

Toronto, ON

Research Assistant

Apr 2022 – Nov 2024

- Automated XML data extraction and formatting with XSLT, saving the team 20+ hours per week, for a cross-functional project training an AI model on Dostoevsky's works.

LEADERSHIP

Trailo Moving Inc.

Toronto, ON

Founder

Jul 2024 – Mar 2025

- Founded and ran a transportation services startup; managed a team of 6 and reached profitability within 5 months.
